Vol. 151 Nos. 1–3

TOXICOLOGY

October 26th 2000

CONTENTS

Cited in: *Biological Abstracts; Elsevier BIOBASE/Current Awareness in Biological Sciences; Cambridge Scientific Abstracts; Chemical Abstracts; Current Contents/Life Sciences, EMBASE/Excerpta Medica; Environmental Mutagene Information Center; Environmental Periodicals Bibliography; Index Medicus*

Articles

The in vitro evaluation of the toxicities of three related herbicide formulations containing ester derivatives of 2,4,5-T and 2,4-D using sub-mitochondrial particles
D.J. Oakes, J.K. Pollak (Australia) 1–9

Bone tissue composition, dimensions and strength in female rats given an increased dietary level of vitamin A or exposed to 3,3′,4,4′,5-pentachlorobiphenyl (PCB126) alone or in combination with vitamin C
P.M. Lind, S. Larsson, S. Johansson, H. Melhus, M. Wikström, Ö. Lindhe, J. Örberg (Sweden) 11–23

Adrenocorticotropin (ACTH) and corticosterone secretion by perifused pituitary and adrenal glands from rodents exposed to 2,3,7,8-tetrachlorodibenzo-*p*-dioxin (TCDD)
It is concluded that for rat or mouse a single exposure to TCDD during pregnancy might be inconsequential for maternally-mediated toxicity
J.A. Pitt, A.R. Buckalew, D.E. House, B.D. Abbott (USA). 25–35

A specialist toxicity database (TRACE) is more effective than its larger, commercially available counterparts
C.A. Anderson, P.T. Copestake, L. Robinson (UK) 37–43

Cadmium-induced elevations in the gene expression of the regulatory subunit of γ-glutamylcysteine synthetase in rat lung and alveolar epithelial cells
A potentially protective mechansism against Cd toxicity is described
G.S. Shukla, J.-F. Chiu, B.A. Hart (USA). 45–54

In vitro and in vivo assessment of the irritation potential of different spin traps in human skin
J. Fuchs, N. Groth, T. Herrling (Germany) 55–63

Bcl-2 does not inhibit the permeability transition pore in mouse liver mitochondria
Normal and Bcl-2 transgenic mice were used
J.C. Yang, A. Kahn, G. Cortopassi (USA, France) 65–72

Differences between isoamyl alcohol and ethanol on the metabolism and DNA ethylation of *N*-nitrosodiethylamine in the rat
Isoamyl alcohol has an affinity for esophageal mixed function oxidases
L.F. Ribeiro Pinto (Brazil) 73–79

Enhancement of nuclear factor-κB activation and protein tyrosine phosphorylation by a tyrosine phosphatase inhibitor, pervanadate, involves reactive oxygen species in silica-stimulated macrophages
A signaling role for reactive oxygen species is described
J.L. Kang, I.S. Pack, H.S. Lee, V. Castranova (South Korea, USA) 81–89

Growth-stimulating effect of dienogest, a synthetic steroid, on rodent, canine, and primate mammary glands
Proliferation of mammary gland tissue is caused by increased secretion of growth hormone
T. Ishikawa, S. Inoue, C. Kakinuma, C. Kuwayama, Y. Hamada, Y. Shibutani (Japan) 91–101

Augmentation of mercury-induced nephrotoxicity by endotoxin in the mouse
Nephrotoxicity was assessed by derum chemistry and histopathology
W.K. Rumbeiha, S.D. Fitzgerald, W.E. Braselton, R.A. Roth, J.J. Pestka, J.B. Kaneene (USA) 103–116

Environmental and Nutritional Interactions

Effect of a carotene concentrate on the growth of human breast cancer cells and pS2 gene expression
K. Nesaretnam, E. Jin Lim, K. Reimann, L.C. Lai (Malaysia) 117–126

News and Views

Masking is addictive triggering, not noise
S. Rowat (Canada) 127–128

Instructions to Authors of Volume 151. 129
Author index of Volume 151 131
Subject index of Volume 151 133–134
